PROFESSIONAL SUMMARY

I am a highly experienced and motivated Web Developer with over 41 years of professional experience. I specialize in creating and maintaining websites, developing software applications and providing technical support for web-based systems. My expertise lies in developing innovative designs using HTML 5, CSS3, JavaScript, jQuery, PHP and MySQL. I have successfully completed multiple projects from concept to completion including designing and coding complex webpages as well as providing technical support. My strong analytical skills allow me to quickly identify issues and provide effective solutions. My biggest achievement has been the successful completion of a project for a large-scale enterprise system that required advanced programming skills. I am an excellent team player and possess excellent communication skills which help me to collaborate effectively with other team members. I have a proven track record of successfully meeting tight deadlines and delivering high-quality results.

EXPERIENCE

- -

Freelance Web Developer

Self-Employed / Catoosa, Oklahoma

I have been working as a Freelance Web Developer at Self-Employed for the past 28 years. During this time, I have had the opportunity to work on a variety of projects for clients in different industries. My main focus has been designing and developing custom websites that are user-friendly, visually appealing, and optimized for search engines. I am passionate about staying up-to-date with the latest web design trends and technologies to deliver high-quality results to my clients.

- -

Clients

Company name / Location

The Living Christmas Company / Redondo Beach, CA

Troubleshooting, maintenance and upgrading of Christmas Tree rental company (featured on TV show 'Shark Tank'). Created custom delivery routing system utilizing Google's Mapping API.

Site: LivingChristmas.com

American Institute of Education / Santa Ana, CA -

Implementation of new Spanish version of their current Electrolysis Training Program Curriculum. Redesigned site template and upgraded Moodle version (Moodle upgrades require expert knowledge of the platform)

Site: www.aielectrology.com/

Anquilla Luxury Collection / Island of Anguilla -

Called in to migrate client's site from a proprietary Drupal installation to a different host. Reverse engineered in-depth proprietary locks previous programmer had implemented to force client to remain. Site is now functioning better than ever on a simple web host at a fraction of the previous cost.

Site: AnguillaLuxuryCollection.com

Dr. Chad Moreau / Los Angeles, CA

Redesign of chiropractic website to incorporate blog, flash elements, and shopping cart. Conversion of video files for hockey training site membership from expensive video streaming host to secure cloud hosting saving the client $250 a month in hosting fees.

Sites: HockeyOT.com, BackToFunction.com

Malibu Association of Realtors / Malibu, CA

Troubleshooting and improvement of existing platform .Creating scripts to process member data from data provider.

Site: MalibuRealtors.org

INCOG (Indian Nation Council of Governments) / Tulsa, Oklahoma

Redesign of website. Conversion of scripting from ASP to PHP. Incorporating OKDEQ (Department of Environmental Quality) dynamic data into live site.

Site: OzoneAlert.com

PERSONAL PROJECTS

- 2002 - 2024 / Educational Site

LookListenLearn.org

Study tools I developed for my kids when I was homeschooling them. Plans are underway to rebuild it with newer technology.

- 2004 - 2024 / Online Library

ByTheFireplace.com

PHP, HTML, JavaScript, jQuery.

- 2004 - 2024 / Online Bible

phpBible.org

An online Bible site I developed in 2004. It offered a downloadable version which could be installed on other site and was used by hundreds of churches and

ministries. The current version (revamped in 2018) is not downloadable, but still gets a lot of traffic.

- 2023 - 2024 / Reference

StrongsConcordance.org

Duplicates most of the original content of Strong's Concordance with a word search as well as a lexicon search.

- 2024 - 2024 / WordPress Plugin

virtualBible.org

A WordPress plugin that installs a full Study Bible complete with text, cross-reference, lexicons, dictionary, interlinear text and book introductions and outlines.
